SPOCE's courses are competitively priced and reflect the quality of the course delivery, our long standing reputation, the comprehensive support materials and our commitment to customer support prior to, during and after the event.

This Exam Preparation course is available on SPOCE's open public schedule, or can be held at your premises. We also offer 3 day Foundation and 5 day Practitioner course options.

Officially launched in 2002, the Management of Risk Guide (M\_o\_R®) guide is intended to help organisations put in place an effective framework for risk management, helping decision making based on risks that affect strategic, programme, project and operational objectives.

The Practitioner Examination Preparation event provides an opportunity to apply learning of the M\_o\_R® guide to scenario-based tasks. The scenarios used on this event are in the same format to those used in the APM Group Practitioner Exam. The Foundation Exam (45 minute, multiple choice) must be passed prior to attempting the Practitioner Exam. If you require the Foundation Exam, please contact SPOCE for the options available.

The focus of this event is to apply previous learning of the method to sample Practitioner style exam questions. An Approved Trainer will be on-hand to provide feedback and guidance on the work completed.

## Who is the course designed for?

The Examination Preparation Event is designed for anyone who has recently passed the M\_o\_R® Foundation Exam and wishes to receive advice and guidance in preparation for taking the APM Group M\_o\_R® Practitioner Examination. The event is not suitable for anyone wishing to learn or substantially revise the M\_o\_R® guide. For revision of the M\_o\_R® method, SPOCE recommends that candidates consider sitting on the 4-day M\_o\_R® course.

All Delegates attending the Exam Preparation Event must already have reached the standard of knowledge required and have passed the pre-requisite Foundation Examination.

This event is also suitable for candidates preparing for the Re-Registration exam.

## What are the course objectives?

The key objectives of this Exam Preparation event are to:

- Provide Delegates with an opportunity to review their individual preparation for the M\_o\_R® Practitioner examination.
- Develop the delegate's ability to apply M\_o\_R® appropriately through various scenarios and associated objective tests.
- Provide Delegates with an opportunity to complete example answers typical of the Practitioner examination question papers
- Receive constructive feedback from an APM Group Approved M\_o\_R® Trainer.
- Discuss specific areas of M\_o\_R® with an Approved Trainer and other attendees, and to devise exam strategies from the responses provided.

# Practitioner Exam Preparation

## What is the course approach?

During the course, candidates will have an opportunity to try out the application of their existing M\_o\_R knowledge to a typical scenario and objective tests.

It can be expected that this preparation event will improve the likelihood of passing the APMG Practitioner Exam. However, success in the exam requires some basic analytical skills under time pressure, and this event is not intended to provide anything other than a high-level appreciation of these important skills.

## What content does the course cover?

This 1.5-day event covers exam topics for the M\_o\_R Practitioner syllabus, including the following:

- Introduction to Preparation for the Practitioner Examination
- Examination; Format;
- Examination Procedure; Hints & Tips
- Typical Topics for preparation and individual practical work include:
  - M\_o\_R Principles
  - M\_o\_R Approach - Policy, Process Guide, Strategies
  - M\_o\_R Process - Identify, Assess, Plan, Implement
  - Embedding and reviewing M\_o\_R

The actual topics covered may be varied by the Event Manager to reflect current and topical examination questions and to reflect the needs of each group of delegates.

The Practitioner Exam will be held on the morning of day two.

## What exams are taken on the course?

**The Practitioner Exam:** 3 hours, open book (M\_o\_R® manual and APMG document "ABC Consulting Ltd" only), consisting of 4 scenario-based objective test (each consisting of 20 marks). The pass mark is 50% (40/80).

The exam is an 'open book' examination. Candidates may make use of *Management of Risk: Guidance for Practitioners* (the official Management of Risk 'manual'), together with the APMG guidance document '*ABC Consulting Ltd - Sample Risk Documents and Worked Examples of some Common Techniques*'. No other material can be used.

Having passed the exam, in order to maintain the Practitioner Qualification, it is required that candidates sit and pass a 'Re-Registration' exam within 5 years of passing the original examination.

### Re-Registration Candidates

This event may also prove useful for Registered Practitioners requiring preparation guidance for the Re-Registration Exam. The Re-Registration exam is an 80 minute exam consisting of 4 questions in the same format as the Practitioner Exam described above.
