

P30[®] Foundation and Practitioner Classroom

About the Course

A P30[®] model provides a decision enabling/delivery support structure for all change within an organisation. This may be provided through a single permanent office which may exist under several different names, for example Portfolio Office, Centre of Excellence, Corporate Programme Office. It may otherwise be provided through a linked set of portfolio, programme and project offices. A P30[®] is essential for ensuring successful outcomes through the delivery of portfolios, programmes and projects.

Designed for

- Managers who need a structure for working alongside corporate organisational investments
- Individuals moving into a P30[®] role, or existing portfolio, programme or project office roles.
- Team members employed within or alongside a support office.
- Anybody who needs to know the basics about providing portfolio, programme and project support.
- Project Managers keen to develop their skills and identify opportunities for career advancement.
- Any Support offices that may be known by a variety of titles such as: Portfolio Office, Centre of Excellence, Enterprise or Corporate Programme Office.

Course Approach

Offered as either a 2 day course, P30 Practitioner is a mixture of input and practical sessions teaching to the 'Practitioner-level' syllabus, delivered by a PeopleCert approved trainer with practical experience of project management. The course incorporates Practitioner exams and includes additional focus on the application of the method using Practitioner-level tasks and objective test exam questions.

Delegates should spend approximately 10 hours pre-study in order to be well prepared for the course.

Benefits of Method

The benefits of using this method include:

- Provides operational efficiencies in the successful delivery of business change initiatives
- Ensures the strategies and performance requirements of an organization are realized via portfolios, programmes, projects and operational business unit
- Ensures an integrated set of outcomes and benefits are measured, managed, monitored and refined to ensure optimal investment and strategic goals are achieved
- Maintains a 'big picture' understanding of the business change portfolio

Course Objectives

By the end of the course, delegates will be able to:

- Explain the P30[®] model and state the key functions and services of a P30[®].
- Explain which P30[®] model is most appropriate to your organisation's strategic objectives.
- Know the arguments for establishing a P30[®] model and measuring its success.
- Know the roles and responsibilities associated with a P30[®] service.
- Describe the tools and techniques used by a P30[®].
- Understand and describe the relationships between strategy, portfolio, programme and project, and how these different relationships affect management issues.
- Help delegates to operate effectively with colleagues and managers in a structured environment.

Exam Information

Practitioner: 2½ hours, open book (P30[®] manual only), 4 scenario-based objective test questions.

Passing the exams will give you internationally recognised professional qualifications.

P30[®] Practitioner Classroom - Course Content

Structured Approach to Managing Projects

- Setting the scene for a structured approach to managing all projects.
